PROFILE

Systems, Networks and Security Administrator ensuring the operational continuity, security and evolution of IT infrastructures. I work on Windows and Linux servers, virtualization, networks, backup and monitoring. My goal: guarantee service availability, reduce manual tasks and secure access.

PROFESSIONAL EXPERIENCE

Systems, Networks and Security Administrator | **QUOBLY** | Grenoble, France | 2026

- Managed 150 users and 30+ VMs (4-person IT team, L2 support); administered Active Directory and Exchange.
- Strengthened privileged account security (MFA, hardening, tiering, Zero Trust principles).
- Configured NAT rules and VPN access on the Stormshield firewall.
- Automated operations (alert scripts, Veeam backups, Synology) and cut onboarding time from 2 h to 1 h.

Secure Infrastructure Project Administrator | **Independent project** | Paris, France | 2025 – Present

- Deployed an SME infrastructure (Proxmox VE cluster, 12 VMs) with redundant Active Directory, WSUS and backup.
- Strengthened service continuity and security: Ceph, Proxmox Backup Server, FortiGate, VPN, MikroTik L3 routing.
- Automated deployment and operations (PowerShell, introductory Ansible and Terraform, Azure and AWS labs).

Systems, Networks and Security Administrator (internship) | **OPINIONWAY** | Paris, France | 2025

- Migrated 130 Active Directory users and groups to Microsoft Entra ID using Entra Connect.
- Automated packaging and deployment of Win32 and Microsoft 365 applications via Intune.

IT Consultant, Systems, Networks and Security Administrator | **TOTALENERGIES** | La Défense, France | 2023 – 2025

- Resolved L2 incidents for 600 multi-site employees, about 50 tickets per day in a team of 3.
- Deployed 200+ Windows workstations via Intune and Windows Autopilot.
- Administered identities and access (Active Directory, Entra ID, Exchange) as well as Windows, Linux and VMware.

IT Support Specialist | **ENGIE** | Paris La Défense, France | 2022 – 2023

- Resolved about 15 L1/L2 incidents per day via ServiceNow within SLA.
- Administered Active Directory, Microsoft 365 and Entra ID.
- Trained new joiners on company tools and services through group sessions.

Systems and Networks Administrator | **SYKES** | Berlin, Germany | 2020 – 2022

- Administered systems and servers, configured network equipment and resolved incidents.
- Managed accounts and access via Active Directory, Exchange and Microsoft 365.

Support Technician | **AXA then MAIRIE DE PARIS** | Paris, France | 2019 – 2020

- Deployed an average of 8 workstations per day: operating systems, software and configuration.
- Diagnosed and resolved workstation and printer failures to limit service interruptions.

EDUCATION

Systems, Networks and Security Administrator – Level 6 RNCP (bac +3/4) | IPREC / SUP DE VINCI, Paris | **May 2025 – Sept. 2025**
IT, Systems and Networks Technician – Level 5 RNCP (bac +2) | IPREC, Paris | **May 2018 – Dec. 2018**
BTS in Computer Science, Systems and Networks (2-year degree) | IAM, Dakar, Senegal | **Oct. 2014 – June 2017**

SKILLS

- **Systems and virtualization:** Windows Server (2012 to 2022), Active Directory, GPO, DNS, DHCP, Linux (Ubuntu, Alma, CentOS, Kali), VMware vSphere 8, Proxmox VE (cluster, Ceph), WSUS
- **Networks:** VLAN, L3 routing, firewalling and VPN (filtering rules, NAT), Cisco, Aruba, MikroTik, FortiGate, Stormshield, UniFi
- **Security and identity:** MFA, hardening, Active Directory tiering, Zero Trust, ISO 27001, GDPR
- **Backup, monitoring and tools:** Veeam, Proxmox Backup Server, Synology, Centreon, disaster recovery and business continuity (PRA/PCA), ServiceNow, iTop, Zammad, Nextcloud, Mattermost, Samsung Knox
- **Microsoft and cloud:** Microsoft 365, Exchange, Entra ID, Intune, Windows Autopilot, Azure, AWS
- **Automation and methods:** PowerShell, Shell, ITIL v4, Agile project management (Scrum, Kanban), technical documentation and procedures

LANGUAGES

French: fluent | **English:** professional

CERTIFICATIONS

- AWS Certified: 3 official certifications (2023 – 2025) | Microsoft Certified: Azure Administrator (2024)
- CompTIA Network+ (2025), Complete Linux Course (2025), SCCM / Endpoint Manager (2024)
